

21st century Nanotechnology

DrainSmart™

Continually Digests Fats, Oils & Grease (FOG) & Odors In Sinks

DrainSmart is the all natural solution to eliminate odors and oily build-up in commercial galley sinks and residential kitchens!

DrainSmart is a 100% non-toxic, eco safe blend of cleaners that contain naturally occurring bacteria to continually digest the Fats, Oils & Grease (FOG) that block sinks. The biological chemistry is similar to what occurs in a water treatment plant. Simply pour one ounce from the built-in measure cup into each drain at the end of the daily schedule. The safe, natural bacteria produce enzymes that continually digest organic build-up that blocks drains and causes odors.

A regular maintenance protocol using DrainSmart will eliminate clogged drains and odors caused by the build-up of food residue. It's safe for pipes, better for municipal waste systems and the environment.

All organisms can be broken down and eliminated through natural processes. Oils, fats and grease are eaten by natural bacteria. By adding more bacteria than is naturally, readily available, this process is boosted or accelerated. The maintenance required to clean the drain tubes of commercial galley sinks is much more detailed and time consuming than a residential house drain. DrainSmart saves on expensive plumbing repairs and downtime, keeping drains flowing freely.

Applications for **DrainSmart™**

commercial airline & private jet galley & lavatory sinks
yachts, sailboats, houseboats & other marine craft
motorhomes & RV's
train galley kitchens & lavatory sinks
commercial kitchens, restaurants & mobile food trucks
hotels, resorts & institutional applications
residential kitchens, bath & laundry sinks
car dealerships & auto repair shop bays with floor drains
food processing plants

Field Tested & Certified:

reduces drain blockages & overflows
non-toxic and readily biodegradable
earth friendly renewable formula
cleans while it eliminates drain odors
works on Fats, Oils & Grease (FOG)
natural fresh orange scent
no caustic chemicals or fumes
prevents FOG discharge into municipal waste systems
space saving concentrated formula

32 oz measure bottles & 2.5 gallon size

Safer for pipes, the planet
& people who use
it! DrainSmart

Avoid costly plumbing
repairs, **DrainSmart** keeps
drains running freely

DrainSmart for *PLANES*...

DrainSmart for *TRAINS*...

DrainSmart for *YACHTS, SAILBOATS, HOUSEBOATS & MARINECRAFT*

DrainSmart for AUTO MAINTENANCE & REPAIR SHOPS
